ABOUT ME

Successfully completed the Python Backend programming language. Ability to work with a team, having led and participated in multiple projects.

We know that every problem in programming has its own solution. And solving them is very interesting. Also, every big and small company has problems. It's interesting that adults have big problems, and I want to solve those big problems.

SKILLS

- Python
- Django Template
- Django REST Framework
- PostgreSQL
- Linux
- GitHub & GitLab
- Postman
- Deployment
- C++
- Java Core
- Atlassian Jira

EXPERIENCE

FULL STACK DEVELOPER | INTERNSHIP

ICT Academy

February 2023 - Present | Part Time

- Ability to work with the server
- Database skills

BACKEND DEVELOPER | START UP

Soff Study Education

October 2022 - April 2023 | Part Time

- In cooperation with Japan, we developed the backend of the www.greenboxjp.uz website
- I gained a lot of experience and new skills in the process of creating this mobile application. While creating the backend, I managed to create a question section, a user section, an answer section, and finally a statistics section.
